

Seminary 2020/2021

SASOL

Ing. S. Corso

- 04.05.21 14.00-16.00 The approval process in a Multinational: risk analysis
14.05.21 14.00-16.00 Energy transition scenarios towards decarbonisation

Ing. G. Allibrio

- 13.04.21 11.00-13.00 Sasol production processes overview
20.05.21 11.00-13.00 Process design for operational problem solving

Ing. G. Arrabito

- 29.04.21 10.00-12.00 Safety Management Systems of major Hazard Sites
10.05.21 10.00-12.00 Integrated environmental authorisation (AIA in Italian)

Dott.ssa E. La Tona

- 24.05.21 09.00-11.00 Risk Based Inspection Methodology, Best practices, Damage mechanism, Integrity Operating Window and Failure analysis

Dott. G. Marzano

- 05.04.21 09.00-11.00 Hydroformilation technologies (Co-based and Rh-based)

Commentato [G1]: g

Ing. S. Marziano

- 29.03.21 11.00-13.00 Combined Cycle Power Plants and Water treatment

ENI

Dott. Franchi e Ing. Lombardi

- 27.04.21 09.00-13.00 Circular Economy, Energy transition, Biorefinery

SONATRACH

Ing. Angelo Grasso / Dott. Marco Pesce

19.05.21 9.00-12.00 The value of Integrated Sustainability in Refining operations

Ing. V. Scaramuzza, Ing. G. Iorio

26.05.21 9.00-12.00 An overview on Base Oils production and optimization process
